

SCA - A company to be trusted with handling dangerous toxic chemicals?

SCA began operations in Newark in 1977. They bring 100,000 gallons of hazardous wastes to Newark every day. These include cyanide, pesticide residues and contaminated solvents and oils.

SCA is a large corporate conglomerate with 60 subsidiaries in 32 states.

The U.S. Government is currently investigating the company and seeking over \$25 million for the clean-up of chemicals (71,000,000 gallons) they dumped at Kin Buc in Edison, N.J. These chemicals are now causing health problems because they are entering the ground water supply. They have also been cited in Newark for altering tanks without proper permits, operating reactors without permits, and operating reactors without their anti-pollution devices working.

In 1980, in Illinois, their facility was closed by a judge because they buried the toxic chemicals instead of treating them legally as they said they would.

In Georgia, executives of the company were indicted for price fixing. They have also been cited by the N.Y. Department of Environmental Conservation for dumping chemicals into a creek. In Ohio, they have been accused of bribing the county commissioners. They have also been caught illegally dumping chemicals into sewer lines in Lewiston N.Y.

AN INCINERATOR TO BURN TOXIC WASTES IS BEING PUSHED THROUGH BY SCA (NEAR FARMERS' MARKET) AND THE STATE DEPARTMENT OF ENVIRONMENTAL PROTECTION. IF THEY GET THEIR WAY, THE INCINERATOR WILL BE APPROVED IN 2½ MONTHS.

THEY ARE TRYING TO GO AROUND THE RECENTLY PASSED BILL, S-1300. THEY CLAIM THAT THIS NEW INCINERATOR IS MERELY AN EXPANSION OF THEIR FACILITY. THIS IS A LIE.

THIS INCINERATOR IS AN ATTACK ON OUR HOMES, OUR HEALTH, AND OUR NEIGHBORHOOD. THERE WILL BE CONSTANT DANGER OF ACCIDENTS, AND CERTAIN AIR POLLUTION.

ANYONE OPPOSED TO THIS INCINERATOR PLEASE CALL THE IRONBOUND COMMITTEE AGAINST TOXIC WASTES IMMEDIATELY (589-4668). HELP STOP SCA, NOTORIOUS FOR BREAKING THE LAW ALL ACROSS THE COUNTRY, FROM LOCATING THIS NEW, VERY DANGEROUS FACILITY IN OUR NEIGHBORHOOD.

IF YOU ARE OPPOSED TO SCA'S INCINERATOR AND TOXIC CHEMICALS IN IRONBOUND COME TO:

MEETING

August 25

Tues.

7:30 p.m.

Trinity Reform Church
483 Ferry St. (x Hawkins St.)

SCA Puede Ser Peligroso A Su Salud!

UM INCENERADOR PARA QUEIMAR DESPERDÍCIOS TÓXICOS ESTÁ SIENDO PLANEADO POR EL SCA Y EL DEPARTAMENTO DE PROTECCIÓN AMBIENTAL (DEP) PARA EL MERCADO DE LOS AGRICULTORES, EN LISTER AVE. SI ESTOS SE SALEN CON LA SUYA, EL INCENERADOR SERÁ APROVADO EN 2 O 3 MESES.

APROXIMADAMENTE 70 FAMILIAS VIVEN EN HOGARES Y APROXIMADAMENTE 200 FAMILIAS VIVEN EN PROYECTOS DE HOGARES FOR EN APARTAMENTOS, DENTRO DE 2000 PIES DE DESTANCIA. AL PONER UN INCENERADOR EN EL SCA SERIA UNA AMENAZA A ESTOS RESIDENTES Y LAS CIUDADES A SUS ALREDEDORES. MUCHAS FAMILIAS Y DUEÑOS DE TIENDAS LOCALES COMPRAN SUS ALIMENTOS A SU CERCANÍA DE EL MERCADO DE AGRICULTORES. HABRA UN PELIGRO CONSTANTE DE ACIDENTES POR EL AUMENTO DE TRAFICO DE CAMIONES PER LA VECINDAD, Y CONTAMENACIÓN AMBIENTAL POR LA INCENERADOR.

USTED CONFIA A UNA COMPANHIA QUE:

*ESTÁN CONSTANTEMENTE BAJO LAS INVESTIGACIONES POR LOS DEP, EPA Y LOS DEPARTAMENTO DE JUSTICIAS CRIMINALES, POR POSIBILIDADES CONECCIONES DE DESPERDÍCIOS PELIGROSOS DEPOSIT/ EN LAS LINEAS DE LO SUMIDERS, Y TAMBIEN LA MUERTE DEL SENOR MANUEL COSTA EN ABRIL, UN TRABAJADOR.

*FUE ORDENADA A CERRAR SUS FACILIDADES EN ILLINOIS, EN EL AÑO 1980, PORQUE ELLOS ENTERARON QUIMICAS TOXICAS EN VEZ DE TRATARLO LEGALMENTE COMO, ELLOS HABIAN DICHO SE

*LO HAN COGIDO DEPOSITANDO QUIMICAS DENTRO DELAS LINEAS DE LOS 'SUMIDERO' EN PORTER, NEW YORK, ILEGALES.
